

Early Morning Surgery

We are now offering an early morning surgery, for all our patients (both Thurso & Halkirk), every week from 7.00am to 8.00am, Monday to Wednesday in the Princes Street Surgery.

Consultations are strictly by pre-booked appointment, ie you cannot book appointments on the day. If you call the surgery between the hours of 7.00am and 8.00am, you will be put through to NHS24 as before.

We hope that this surgery will be particularly accessible for working/commuting patients who find it difficult to get to the surgery during normal working hours. If you have any questions or queries regarding the early morning surgery, please call Reception on 01847 893154.
